25X1

A new belt line for freight traffic, intended to relieve congestion at the Breclav (P49/S75) main railroad station, is being planned. This belt line will pass east of the Breclav station in a wide arc; the southern end of the belt line will join the main line from Breclav to Bratislava, which it will connect to the main line from Breclav toward the east at a point north and east of the main station.
